

2012 Well Production Services Client Advisory Board Meeting

Welcome to Stimulation CAB 2012.

On behalf of Schlumberger, it is a pleasure to invite you to participate in the

2012 Stimulation Client Advisory Board (CAB) Meeting. The topics we will cover have been carefully selected to reflect current and future industry challenges—with a specific focus on unconventional reservoirs.

The themes for the forum include

- unconventional reservoir challenges—including shale, tight reservoirs, and coalbed methane (CBM)
- experiences and best practices from North American operators in unconventional reservoirs
- innovative stimulation technology developments
- enhanced-conductivity technologies, seismic-to-simulation workflows, microseismic monitoring, environmental solutions, and multistage stimulation techniques.

We appreciate and encourage your input on these and other themes.

To take full advantage of this stimulation forum, I hope that you will actively participate by sharing technology deployment experiences with other E&P operators and accessing field trial opportunities for upcoming technologies.

This meeting will allow you to openly provide input and contribute to the Schlumberger portfolio of R&D projects. At the same time, it gives you an opportunity to familiarize yourself with our current stimulation technology developments and latest case studies.

Wishing you a very productive forum.

With my best regards,

 **Dominique Malard**
President
Schlumberger Well Services

Agenda

2012 Well Production Services Client Advisory Board Meeting

Wednesday June 6

7:30–8:30	Registration	
8:30–8:45	Welcome & Introductory Message	
8:45–9:00	Purpose of the Event	Salvador Ayala VP Well Production Services Marketing & Technology, Schlumberger
9:00–9:45	Message on Unconventional Resources Worldwide	Peter Richter Unconventional Marketing and Technical Manager, Schlumberger
9:45–10:00	Open Discussion/Q&A	
10:00–10:15	Break	
10:15–11:15	Keynote Speaker	Bradley A. Aman Vice President, Northern Region Production, Continental Resources, Inc.
11:15–12:15	Keynote speaker	Dave Cramer Engineering Fellow, ConocoPhillips
12:15–12:45	Open Discussion/Q&A	
12:45–14:00	Lunch	
14:00–14:30	Client Presentation—Latin America	Leonardo Maschio Nonconventional Engineering Manager, Pluspetrol
14:30–15:15	Consistent Workflows for Unconventional Reservoirs—Mangrove* Software	Utpal Ganguly Software Technology Manager, Schlumberger
15:15–15:30	Open Discussion/Q&A	
15:30–15:45	Break	
15:45–16:15	Client Presentation—Europe & Africa	Philippe Charlez Unconventional Resources Development Manager, Total
16:15–17:00	Evolution of Effective Hydraulic Fractures—HiWAY* Service	Alejandro Peña Chemistry and Materials Portfolio Manager, Schlumberger
17:00–17:15	Open Discussion/Q&A	
17:15–17:30	Wrap-up/Recap	

Thursday June 7

8:00–8:30	Coffee	
8:30–9:00	Stimulation Optimization of Unconventional Resource Plays in Saudi Arabia	Moataz Al-Harbi Senior Stimulation Engineer, GPED, Saudi Aramco
9:00–9:30	Channel Fracturing in the Western Desert—Unlocking the Potential in the Abu Roash & Upper Bahariya Formations	Mohamed Samir Operation General Manager, Sahara Oil & Gas
9:30–10:15	Multistage Solutions	Jason Baihly Multistage Stimulation Product Line Manager, Schlumberger
10:15–10:30	Open Discussion/Q&A	
10:30–10:45	Break	
10:45–11:15	Client Presentation—Asia	Zhang Da Wei Vice Chief Engineer, Jilin Oilfield, PetroChina
11:15–11:45	Client Presentation—Asia	Fu Jin Hua Vice Chief Geologist, Changqing Oilfield, PetroChina
11:45–12:30	Environmental & Social Impact Solutions (i.e., Disclosure, OpenFRAC* System, MIOX, etc.)	Joe Lima OpenFRAC Marketing & Technology Manager, Schlumberger
12:30–12:45	Open Discussion/Q&A	
12:45–14:00	Lunch	
14:00–14:30	Client Presentation—Russia & Central Asia	Zdenko Kaluder Fracturing Expert, TNK-BP
14:30–15:15	Redefining Efficiency—SPARK* Platform, Equipment, and Footprint	Troy Huey Stimulation Wellsite Delivery Portfolio Manager, Schlumberger
15:15–15:30	Open Discussion/Q&A	
15:30–15:45	Break	
15:45–16:30	Ongoing Technology Developments (Chemistry, Surface Microseismic, etc.)	Philippe Enkababian Stimulation Domain Technology Director, Schlumberger
16:30–17:15	Direction for the Future/Open Discussion	
17:15–17:30	Closing Comments	Salvador Ayala VP Well Production Services M&T, Schlumberger
